Silicone Edge Automated Stitching

*2018 SGIA Product of the Year

SEAS is a revolutionary system for SEG Keder sewing. Our sewing solutions, with three different levels of automation, were developed to increase the productivity of operation and meet clients' different expectations.

Following the market closely and realizing the exponential growth of the use of Tension Fabrics with SEG Keder, we've developed three

revolutionary solutions to increase productivity and quality in this area:

The SEAS system (Silicone Edge Automated Stitching).

The SEAS solutions are the result of a strong investment in Research & Development, backed by real-world feedback from our customers.

A SEAS kit to install on your sewing system

Get more from a standard machine

The SEAS Universal Kit is a set of accessories that transform a normal sewing machine into a high quality and productive machine to sew any type of SEG Keder.

Composed by 3 parts:

A. Reel Holder

B. Feeder

C. Guide

The focus on the development of this solution was to allow companies that already own a sewing machine to start or significantly increase the SEG finishing.

With a quick and easy installation, which can be done by any employee of the company.

With intuitive use without the need for training, simple maintenance and reduced delivery times, this is the right solution for anyone who wants to be present in one of the areas of highest growth in the Soft Signage world.

Book your demo now!

Learn more about our machines in person or online. Our team is at your disposal to show our SEG finishing technologies in real time.

Why book a demo?

- We can run the demo with the textiles you want.
- Schedule the demo when works best for you.
- There's no commitment!
