Silicone Edge Automated Stitching

*2018 SGIA Product of the Year

SEAS is a revolutionary system for SEG Keder sewing. Our sewing solutions, with three different levels of automation, were developed to increase the productivity of operation and meet clients' different expectations.

Following the market closely and realizing the exponential growth of the use of Tension Fabrics with SEG Keder, we've developed three

revolutionary solutions to increase productivity and quality in this area:

The SEAS system (Silicone Edge Automated Stitching).

The SEAS solutions are the result of a strong investment in Research & Development, backed by real-world feedback from our customers.

MX Event
+SEAS

Automatic SEG Keder Sewing Systems that doesn't need a sewing specialist

Do more with the workforce you already have

Take the next step in the SEG finishing with our fully automatic sewing machine, the patented MX Event +SEAS. Developed for companies with high productions of flat keder sewing, this machine is a game-changer and will improve workflow and productivity.

With its user-friendly interface and automation, the MX Event +SEAS can be operated easily by your workforce, eliminating the need for a sewing expert.

MX Event +SEAS is Industry 4.0 ready, making it easier to track production and increase efficiency.

This advanced technological solution automatically joins large format panels with great quality and an incredibly accurate alignment to form extra-large panels.

The most powerful SEG sewing machine

Now even more powerful with Extension Tables

To help handle and align heavy and oversized display textiles, we created the Extension Table. It is possible to incorporate one or two Extension Tables to the MX Event +SEAS, allowing users to have a length of 6 to 10 meters.

This technological solution developed with levelling castor wheels can be easily and quickly moved around the factory floor.

The MX Event +SEAS increases the productivity and efficiency of your finishing department, and when complemented with Extension Tables, it becomes an even more powerful machine.

Extension Tables available sizes:

- Extension Table in 2 meters
- Extension Table in 3 meters

Book your demo now!

Learn more about our machines in person or online. Our team is at your disposal to show our SEG finishing technologies in real time.

Why book a demo?

- We can run the demo with the textiles you want.
- Schedule the demo when works best for you.
- There's no commitment!
